

Special Workshops at IDS 2016

This year, five workshops will be held during the IDS meeting. Each workshop, presenter, scheduled time and abstract are listed below. If you are interested in attending one or more of these workshops, please **email the workshop presenter to register**.

We need everyone to register so that we can provide the local organizing committee with estimated attendance. The local committee will then secure appropriate space for each session.

There is no fee for workshops.

W-1 Freshwater monoraphids **Monday 22 Aug.: 18h30**

Lead: **Marina Potapova**, Academy of Natural Sciences, Drexel University (USA), marina.potapova@drexel.edu
